RE: Skinner Land Waste Site
West Chester, Ohio
General Notice of Potential Liability and
Request for Information

Dear Sir:

The United States Environmental Protection Agency ("U.S. EPA") has documented the release or threatened release of hazardous substances, pollutants and contaminants at the above referenced Site, and is planning to spend public funds to control and investigate these releases. This action will be taken by U.S. EPA pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §9601 *et seq.*, ("CERCLA") as amended by the Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, 100 Stat. 1613 (1986) ("SARA"), unless U.S. EPA determines that such action will be done properly by a responsible party. Responsible parties under CERCLA include the current and former owners and operators, and persons who generated the hazardous substances or were involved in transport, treatment, or disposal of them at the Site. Under Section 107(a) of CERCLA, 42 U.S.C. §9607(a), where the Agency uses public funds to achieve the cleanup of the hazardous substances, responsible parties are liable for all costs associated with the removal or remedial action and all other necessary costs incurred in cleaning up the Site, including investigation, planning and enforcement.

The U.S. EPA is currently planning to conduct the following actions at the above referenced Site.

1. Develop and implement a Site Health and Safety plan, including an air monitoring plan and Site Emergency Contingency Plan;
2. Develop and implement a Site Security Plan;

3. Characterize, remove, and properly dispose of hazardous waste (containerized and uncontainerized waste) and associated contaminated soil and debris located at the Site in accordance with U.S. EPA's Off-Site Rule (40 CFR 300.400);
4. Develop and implement an extent of contamination and post excavation sampling plan to verify clean-up; and
5. If necessary, backfill excavated areas with clean material and topsoil.

U.S. EPA has received information that your company may have owned or operated or generated or transported hazardous substances that were disposed of at the Site. By this letter, U.S. EPA notifies you of your potential liability with regard to this matter and encourages you, as a potentially responsible party, to reimburse U.S. EPA for costs incurred to date and to voluntarily perform or finance the response activities that U.S. EPA has determined or will determine are required at the Site. U.S. EPA is willing to discuss with you the entry of an appropriate administrative consent order under which you would perform or finance response activities and reimburse U.S. EPA for its costs. **Your performance of response activities must be under EPA direction. Under no circumstances should you remove the waste without EPA approval, as another disposal location could result in your illegally disposing of hazardous waste.**

If a consent order cannot be promptly concluded, U.S. EPA may issue a unilateral order under Section 106 of CERCLA, requiring you to perform specified work. Under Sections 106 and 107 of CERCLA, you may be liable for reimbursement of U.S. EPA's costs, for statutory penalties, and for treble damages for noncompliance with such an order. If you are a qualified small business, enclosed is a U.S. EPA Small Business Regulatory Enforcement Fairness Act information sheet which may be helpful if you are subject to an U.S. EPA enforcement action

As a potentially responsible party, you should notify U.S. EPA in writing within fourteen (14) days of receipt of this letter of your willingness to perform or finance the activities described above. If U.S. EPA does not receive a timely response, U.S. EPA will assume that your company does not wish to negotiate a resolution of its potential responsibility in connection with the Site and that your company has declined any involvement in performing the response activities.

Your letter should indicate the appropriate name, address, and telephone number for further contact with you. If you are already involved in discussions with state or local authorities, engaged in voluntary cleanup action or involved in a lawsuit regarding this Site, you should continue such activities as you see fit. This letter is not intended to advise you or direct you to restrict or discontinue any such activities; however, you are advised to report the status of those discussions or actions in your response to this letter and to provide a copy of your response to any other parties involved in those discussions or actions.

Your responses to the notice of potential liability should be sent within fourteen (14) days to:

Arlene Lilly
U.S. EPA - Region 5
Emergency Enforcement Services Section SE-5J
77 West Jackson Boulevard
Chicago, Illinois 60604

If you need further information regarding this letter, you may contact Arlene Lilly, Emergency Enforcement & Support Section, at (312) 353-1907. Direct any legal questions to Sherry L. Estes, of the Office of Regional Counsel, at (312) 886-7164.

Due to the nature of the problem at this Site and the attendant legal ramifications, U.S. EPA strongly encourages you to submit a written response within the time frames specified herein. We hope you will give this matter your immediate attention.

Sincerely yours,

Linda M. Nachowicz, Chief
Emergency Response Branch #2

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an SBA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System (NAICS) designation, number of employees, or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
